

Trade Secret Designs

Ecommerce

Information

Many People know that the internet is a great way to advertise or to find information. While this can benefit anyone another use for the internet is to sell your products on it. An ecommerce website works just like a brick and mortar location with one obvious difference and many others. People can shop from the comfort of their home.

Integration

If you have already signed up for one of those easy to use shopping carts and have found that it's not as simple as they made it out to be. We can help you finish your integration. Pricing depends on job. Starting as low as \$50.00

Shopping Cart Setup

If you already have a website and just need a Shopping Cart setup. We can help you with getting it built into your site. Price depends on size of job. Starting as low as \$50.00

Don't Need a Shopping Cart

Sometimes people are only trying to sell only one item from their site. If this is the case for you, then we can set this up for you. Price depends on job. \$50.00 - \$150.00

Pricing

Pricing on an ecommerce web site is based on the size of the job. If you are only selling one item the price would be less than a site selling 100 items.

The typical ecommerce site runs around \$1600.00. This price is subject to change depending on the size of the site.

Credit Card Processors

It is necessary to have a safe way to accept credit cards online. Some of these credit card processors can be really good for one type of business and horrible for another. Be aware during your search to observe the different rates for transactions. If you would rather Trade Secret Designs find a credit card solution for your site please just ask.
